

Terms and Conditions

2021-V.e.

Dear Reader,

Without prejudice.

This outline has been created to cover aspects of Terms and Conditions related to MEC BEYOND. At any point a person enrolls and pays for service(s), it will be deemed that they have read and accepted the Terms and Conditions herein.

To view Services and other areas of the website, you will be prompted to become a member. After your registration has been reviewed, you may be accepted and an email confirmation will be sent to the email address registered.

Mobile Esthetics Care BEYOND, also noted herein and as, MEC BEYOND, expresses thanks for your time in reading this document and understanding the importance of the outline.

Sincerely,

MEC BEYOND
Management.

COVID-19 PROTOCOL

To ensure your health and safety and that of our employees, our team has worked hard to put new procedures in place.

Before your next appointment, please read the following new practices which adhere to the regulations issued by the Government of Quebec and the CNESST to reduce the risks and spread of Covid-19.

I thank you in advance for your cooperation and understanding of the importance to everyone.

CLIENT PROTOCOL

Please have a designated area for our session, ready, with consideration of the home hygiene outline. Void of food or pets. When I arrive, I will use a hand sanitizer and put a new mask on, before entering your home. I will wash my hands anew in your home before setting up the work area.

You will be provided with a COVID-19 questionnaire that will require your review and signature.

CORPORATE PROTOCOL FOR THE DISINFECTION OF TOOLS AND EQUIPMENT.

For the safety of our staff and customers, the following measures have been implemented by

- Staff have completed an infection prevention certificate program from PREempt.
- A protocol guide for safety at work practices has been created and implemented by Mobile Esthetics Care Beyond since the beginning.
- This guide refers to the safety obligations of employers described by the CNESST, as well as to references to information from the Quebec Ministry of Health, Health Canada and Health Ministry of Ontario.
- The guide contains information on the types of transmittable diseases, the risks, preventive measures and the protocols for disinfecting the workstation, tools and equipment.
- The products used to disinfect the workstation, tools and equipment are products approved and listed on Health Canada, namely REJUVENATE, in Quebec PREempt.
- We are fully insured. In order to obtain insurance, proof of our protocol guide has been requested and verified by the insurance company.

We take everyone's health and safety seriously.

PERSONAL SAFETY / PROTECTIVE EQUIPMENT WILL BE WORN AT ALL TIMES BY CARE AESTHETICS MOBILES BEYOND STAFF.

The staff and I will wear a mask when performing our services as this not only protects us from germs but also protects us from dust caused by pedicures, (dead skin dust) from fingernail and toenail tips. Chemical vapors from products such as acetone, disinfectant and disinfectant alcohol. From the powder of products that emit dust particles that are not healthy if inhaled. Or droplets of blood that sometimes occur during waxing ...

So please understand and not be sensitive that we are wearing a mask as it is for our protection. It has nothing to do with feelings.

COVID-19 PROTOCOL, continued

STAFF PROTOCOL

- All products, material, and equipment have been properly disinfected using the CNESST industry-specific practices and protocols.
- Wearing a mask is mandatory for all employees.
- New gloves will be worn at all times.
- A visor or protective glasses will be worn depending on the service(s) provided.
- Our team will be practicing frequent hand washing and physical distancing as much as possible.
- Between clients, our staff will disinfect all equipment and tools used for treatments.

During these difficult times, we need to be very vigilant and respectful of everyone's safety. If you are not feeling well, we ask that you please cancel and reschedule your appointment.

Thank you for your cooperation and assistance in ensuring safety for everyone.

Home and Personal Hygiene

To ensure your safety, my safety, MEC BEYOND staff safety, and all customer safety, Home, and Personal hygiene are greatly considered at the time of your first consultation and all scheduled appointments.

Definition of Personal and Home Hygiene:

Good personal hygiene is very important in today's society for both health and social reasons. Keeping your hands and body clean is vital in stopping the development and spread of illness and infection. This simple habit doesn't just benefit your health – it can help protect those around you too.

Home hygiene pertains to the hygiene practices that prevent or minimize the spread of disease at home and other everyday settings such as social settings, public transport, the workplace, public places, etc.

Hygiene in a variety of settings plays an important role in preventing the spread of infectious diseases. It includes procedures used in a variety of domestic situations such as hand hygiene, respiratory hygiene, food and water hygiene, general home hygiene (hygiene of environmental sites and surfaces), care of domestic animals, and home health care (the care of those who are at greater risk of infection).

Home and Personal Hygiene, continued

At present, these components of hygiene tend to be regarded as separate issues, although based on the same underlying microbiological principles. Preventing the spread of diseases means breaking the chain of infection transmission. Simply put, if the chain of infection is broken, an infection cannot spread.

Personal Hygiene:

Clarification:

Every customer will be responsible for exercising sound judgment and common sense for his or her hygiene at the time of scheduled appointments.

More specifically: For personal areas, such as waxing service, a shower/bath is required after a bowel movement or personal intimate activity. Personal waxing is prohibited during menstruation.

Personal Protective Equipment/PPE:

Personal/Protective safety equipment will be worn at all times by MEC BEYOND staff.

Privacy:

- All information received, discussed, and otherwise transmitted remain confidential within MEC BEYOND.

Home and Personal Hygiene, continued

Home Hygiene:

Every customer will be responsible for exercising sound judgment and common sense for his or her home hygiene at the time of scheduled appointments.

Clarification:

Good home hygiene means engaging in hygiene practices at critical points to break the chain of infection. Because the "infectious dose" for some pathogens can be very small (10-100 viable units or even less for some viruses), and infection can result from the direct transfer of pathogens from surfaces via hands or food to the mouth, nasal mucous, or the eye, 'hygienic cleaning' procedures should be sufficient to eliminate pathogens from critical surfaces.

Hygienic cleaning can be done through:

- Hand washing.
- Mechanical removal (i.e., cleaning) using a soap or detergent. To be effective as a hygiene measure, this process must be followed by thorough rinsing under running water to remove pathogens from the surface.
- Using a process or product that inactivates the pathogens. Pathogen kill is achieved using a "micro-biocidal" product, i.e., a disinfectant or antibacterial product; waterless hand sanitizer; or by application of heat.
- In some cases, combined pathogen removal with kill is used, e.g., laundering of clothing and household linens such as towels and bed linen.

Hand washing:

In situations where handwashing with soap is not an option (e.g., when in a public place with no access to wash facilities), waterless hand sanitizers such as an alcohol hand gel can be used. They can be used in addition to hand washing to minimize risks when caring for "at-risk" groups. To be effective, alcohol hand gels should contain not less than 70%v/v alcohol.

Compliance:

Good personal and home hygiene means engaging in hygiene practices. Failing to meet general standards, MEC BEYOND, and staff reserve the right to refuse service, and any services paid will NOT BE REFUNDED.

Service Terms & Conditions

Services are being provided at your home. All measures are being taken to provide you with a Positive and Safe Luxury Spa session. MEC BEYOND thanks you in advance for assisting in meeting the following guidelines. When you schedule your appointment with us, you are agreeing to these and all other policies.
